

Xored Q7

Functional testing for Eclipse platform

Short summary

- Started in Dec, 2009 as an in-house project
- First introduced in March, 2010 on EclipseCon
- Since Sep, 2010 actively used internally
- First public release in Aug, 2011
- Over 3 thousand tests executed hourly on our build servers

Key benefits

- Capture/replay that just works
- No waiting/sleeping
- Declarative test preconditions
- Readable and extensible DSL
- Ease of continuous integration

Capture/replay that just works

No waiting operations

Declarative application state

Extendable DSL

Continuous Integration
